

The Qualifications Board has agreed to introduce a scheme of Continuing Professional Development (CPD) for holders of the Diploma and/or the Certificate. The objective is to give Diploma and Certificate holders, together with their employers, tangible evidence that they are up to date with their training and have continued to develop their professional knowledge since obtaining the Qualification. CPD will be formally launched at the National Seminar at Milton Keynes in September and will become operative from 1 October this year. A copy of the CPD Regulations, which have been approved by the Qualifications Board and endorsed by Council, can be obtained by clicking [here](#).
