

## **Notes on Conference Fringe Events**

### **2020 London Mayoral and Assembly elections**

Lea Goddard will be providing an update to London Branch members on preparations for the 2020 London Mayoral and Assembly elections. Also, in attendance will be Tracy Porch-Bradley from CGI and Sonya Anderson from Smartmatic to answer any questions on the e-Counting technology. Demonstrations of the GLA e-Count system will be available throughout conference on Stand 11/12.

### **PARO Authorities**

This fringe event gives people working in PARO offices the chance to meet informally to discuss any elements of coordinating the May poll. Paul Docker from the Cabinet Office will be on hand to answer any questions as will Laura Lock from the AEA.

### **Student Registration**

The talk will look at the implementation of the student voter registration service for higher education institutions, reviewing some of the issues that have been identified with the 1<sup>st</sup> phase of the service. We will also provide a view of the new functionality that will be provided in 2020.

### **Branch Officers**

Are you a branch officer with questions about your role or the Association in general? Are you interested in finding out more about any of the branch officer roles and what is involved? Do you have any questions about how the Association operates as a business and how branch officers' roles complement this? If so, please join us for an informal question and answer session. We would be pleased to see as many of you as possible.
